Determination of Financial Assistance Eligibility:

Generally, eligible persons are eligible for Financial Assistance, using a sliding scale, when their Gross Family Income is at or below 200% of the Federal Government's Federal Poverty Guidelines (FPG). Eligibility for Financial Assistance means that Eligible Persons will have their hospital care partially covered, and they will not be billed more than "Medicaid fees for services."

Other criteria beyond FPG may also be considered, for example the availability of cash or other assets that may be converted to cash, and excess monthly gross income relative to monthly household expenditures, which may result in exceptions to the preceding statement. Incomplete applications are not considered and applicants will be notified and given an opportunity to provide the missing documentation/information. Patients will be given up to 240 days post-discharge billing statement to submit a completed FAP application.

EPCH will also translate its FAP, FAP application form and PLS of its FAP in other languages wherein the primary language of the residents of the community served by EPCH represents 5% or 1,000; whichever is less; of the population of individuals likely to be affected or encountered by EPCH. Translated versions will be made available upon request in all of the offices mentioned above, as well as on the Hospital's website.
